## HANA Cloud Modeling – Efficient Unlimited Exam Practice

Planning for SAP C-HCMOD-05 exam with Photoexperienceacademy is a perfect and right way to success, So that they can practice and learn at any time and any places at their convenience.

If you master these, you will have 20-30% of [C-HCMOD-05](#) the questions made easy, If you do all things with efficient, you will have a promotion easily, Our questions and answers include all the [Formal C\\_SAC\\_2402 Test](#) questions which may appear in the exam and all the approaches to answer the questions.

Our C-HCMOD-05 actual exam files can help you learn many useful skills, Besides, you can review your C-HCMOD-05 - SAP Certified Application Associate - SAP HANA Cloud Modeling actual exam dumps anywhere and anytime.

According to aims and principle of our company, we have been trying to make every customer feel satisfied at our services and develop our C-HCMOD-05 demo questions to suit with the requirements of syllabus of C-HCMOD-05 practice exam.

**NEW QUESTION: 1** In which document would you expect to see an overview of actual service achievements against targets?  
**A.** Capacity Plan  
**B.** SLA Monitoring Chart (SLAM)  
**C.** Operational Level Agreement (OLA)  
**D.** Service Level Agreement (SLA)  
**Answer: B**

**NEW QUESTION: 2** A user calls to report that a notice keeps appearing on their screen whenever they try to pull down video clips from a website. The notice says "This category is being blocked because it is streaming media. Please click continue to use your assigned quota time". The technician is aware that a new web filtering application was recently implemented which assigns a 120 minute quota on streaming media and a message appears allowing the user to continue. Which of the following is the BEST response for the technician to give the user?  
**A.** "A new application was introduced to help improve and manage the network. The video should appear once you select continue on the message."  
**B.** "If you read the entire notice screen it clearly states that you should click continue. Did you read the entire notice?"  
**C.** "Since video takes a large amount of bandwidth, management has implemented a policy to limit what each user can download and watch."  
**D.** "Are these video clips work related? What specific website are you trying to download the videos from?"  
**Answer: A**

**NEW QUESTION: 3** A customer is concerned that its volumes would not have access to the full system cache but wants to create pools to limit the amount of space that different departments use. Which activity allows the customer to meet these requirements?  
**A.** Create a single parent pool that contains smaller child pools  
**B.** Create several small pools that correspond to LUN size policies  
**C.** Create LUN size policy in the GUI and set system cache to global via the CLID  
**D.** Create a single storage pool that contains all the MDisks  
**Answer: A**  
Explanation: Explanation/Reference: Before V7.4, the disk space of a storage pool was provided from MDisks, so the capacity of a storage pool depended on the MDisks' capacity. Creating or splitting a storage pool is not possible and a user cannot freely make a storage pool with a particular capacity they want. A child pool is a new logical object that is created from a physical storage pool and provides most of the functions that Pools have (for example, volume creation), but the user can specify the capacity of the child pool at creation. A child pool is an object similar to a storage pool, and can be used interchangeably with a storage pool. It supports volume copy and migration.
