You can encounter the same questions in the real exam, Our company is famous for its high-quality in this field especially for 1z0-1084-22 certification exams.

Our users are willing to volunteer for us, Knowledge is important at any time, Our 1z0-1084-22 test prep will not occupy too much time, Do you want to start your own business and make a lot of money?

Available in PDF Format.

NEW QUESTION: 1 Which three capabilities are provided by MLD snooping? (Choose three.)
A. flooding control packets to the egress VLAN
B. a 5-minute aging timer
C. a 60-second aging timer
D. dynamic port learning
E. user-configured ports age out automatically
F. IPv6 multicast router discovery
Answer: B, D, F
Explanation: Like IGMP snooping, MLD snooping performs multicast router discovery, with these characteristics:
* Ports configured by a user never age out.
* Dynamic port learning results from MLDv1 snooping queries and IPv6 PIMv2 packets.
* If there are multiple routers on the same Layer 2 interface, MLD snooping tracks a single multicast router on the port (the router that most recently sent a router control packet).
* Dynamic multicast router port aging is based on a default timer of 5 minutes; the multicast router is deleted from the router port list if no control packet is received on the port for 5 minutes.
* IPv6 multicast router discovery only takes place when MLD snooping is enabled on the switch.

NEW QUESTION: 2 A public cloud provider is looking for a method of delivering services through a user interface that:
- Is specific to the user who logs in
- Delivers services that adhere to the specific service level agreement of each customer
Which cloud product would best enable the provider to meet these requirements?
A. vRealize Orchestrator
B. vRealize Automation Self-Service Catalog
C. vRealize Automation Advanced Service Designer
D. vSphere Web Client
Answer: C

NEW QUESTION: 3 You need to resolve the licensing issue before you attempt to assign the license again. What should you do?
A. From the Groups blade, invite the user accounts to a new group
B. From the Directory role blade, modify the directory role
C. From the Profile blade, modify the usage location
Answer: C
Explanation: License cannot be assigned to a user without a usage location specified.
Scenario: Licensing Issue
You attempt to assign a license in Azure to several users and receive the following error message: "Licenses not assigned. License agreement failed for one user." You verify that the Azure subscription has the available licenses.
