NEW QUESTION: 1 A child with an advanced verbal repertoire exhibits aggression when asked to do a new math problem. In order to address the problem the behavior analyst should **A.** implement a punishment procedure for aggression. **B.** immediately remove the math problem. **C.** immediately show him the correct answer. **D.** teach the child an alternative escape response.

Answer: D

NEW QUESTION: 2 In the Regression node, which option uses all of the input fields in the model regardless of importance or significance? **A.** Backwards **B.** Forwards **C.** Enter **D.** Stepwise **Answer: C**

NEW QUESTION: 3 Scenario: CGE acquires a small energy company that is running MGMT, a proprietary 16-bit application. A Citrix Architect is tasked with deploying this application to the Executives/Management end- user group. The CIO mandates that a FlexCast model must be chosen that resembles this end- user group's existing delivery strategy. It is important that a single-image deployment is utilized and that management effort is kept to a minimum for the update process. The availability of a fast rollback plan must also be available after upgrades, since it can often result in system instability. How should the architect deploy MGMT as an On-Demand App? **A.** As a VM hosted app on Windows 7 x86 deployed with Provisioning Services **B.** As a published application on Windows Server 2012 R2 deployed with Provisioning Services **C.** As a published application on Windows Server 2008 R2 deployed with Machine Creation Services **D.** As a VM hosted app on Windows 7 x86 deployed with Machine Creation Services

Answer: A

NEW QUESTION: 4 The Chief Information Security Officer (CISO) at a software development company is concerned about the lack of introspection during a testing cycle of the company's flagship product. Testing was conducted by a small offshore consulting firm and the report by the consulting firm clearly indicates that limited test cases were used and many of the code paths remained untested. The CISO raised concerns about the testing results at the monthly risk committee meeting, highlighting the need to get to the bottom of the product behaving

unexpectedly in only some large enterprise deployments. The Security Assurance and Development teams highlighted their availability to redo the testing if required. Which of the following will provide the MOST thorough testing? **A.** Use the internal teams to perform White box testing. **B.** Have the small consulting firm redo the Black box testing. **C.** Use the internal team to perform Black box testing. **D.** Use the internal teams to perform Grey box testing. **E.** Use a larger consulting firm to perform Black box testing. **Answer: A**
