NEW QUESTION: 1What is the purpose of allowing a "manual rating" in the summary section of a performance form?Please choose the correct answer.**Response:****A.** To delete the calculated rating from the form.**B.** To make the calculated rating editable by the person providing the rating of record.**C.** To manually override the system-generated calculated rating in an additional rating field.**D.** To provide a qualitative feedback on the overall performance.**Answer: C**

NEW QUESTION: 2You have a proprietary data store on-premises that must be backed up daily by dumping the data store contents to a single compressed 50GB file and sending the file to AWS. Your SLAs state that any dump file backed up within the past 7 days can be retrieved within 2 hours. Your compliance department has stated that all data must be held indefinitely. The time required to restore the data store from a backup is approximately 1 hour.Your on-premise network connection is capable of sustaining 1gbps to AWS.Which backup methods to AWS would be most cost-effective while still meeting all of your requirements?**A.** Transfer the daily backup files to an EBS volume in AWS and take daily snapshots of the volume**B.** Send the daily backup files to Glacier immediately after being generated**C.** Transfer the daily backup files to S3 and use appropriate bucket lifecycle policies to send to Glacier**D.** Host the backup files on a Storage Gateway with Gateway-Cached Volumes and take daily snapshots**Answer: C**
Explanation:ExplanationBecause in the stored volume mode, you are storing data locally, the binary-compressed format is already available, and the bandwidth of your AWS connection meets the 7days/2hour SLA.
