Our free trial CheckPoint 156-587 pass-sure cram is a successful and brave attempt, Just click on the mouse to have a look, giving you a chance to try on our 156-587 learning guide.

If you are still struggling to prepare for passing 156-587 real exam at this moment, our 156-587 examcollection dumps can help you preparation easier and faster.

NEW QUESTION: 1You have a project in Azure DevOps. You have an Azure Resource Group deployment project in Microsoft Visual Studio that is checked in to the Azure DevOps project. You need to create a release pipeline that will deploy resources by using Azure Resource Manager templates. The solution must minimize administrative effort. Which task type should you include in the solution?**A.** Azure App Service Manage**B.** Azure Cloud Service Deployment**C.** Azure PowerShell**D.** Azure RM Web App Deployment**Answer: C****Explanation:**There are two different ways to deploy templates to Azure DevOps Services. Both methods provide the same results, so choose the one that best fits your workflow.1. Add a single step to your build pipeline that runs the PowerShell script that's included in the Azure Resource Group deployment project (Deploy-AzureResourceGroup.ps1). The script copies artifacts and then deploys the template.2. Add multiple Azure DevOps Services build steps, each one performing a stage task. The first option has the advantage of using the same script used by developers in Visual Studio and providing consistency throughout the lifecycle.
