NEW QUESTION: 2King Louis XVI and Queen Marie Antoinette ruled France from 1774 to 1789, a time when the country was fighting bankruptcy. The royal couple did not let France's insecure financial situation limit their immoderate spending, however. Even though the minister of finance repeatedly warned the king and queen against wasting money, they continued to spend great fortunes on their personal pleasure. This lavish spending greatly enraged the people of France. They felt that the royal couple bought its luxurious lifestyle at the poor people's expense. Marie Antoinette, the beautiful but exceedingly impractical queen, seemed uncaring about her subjects; misery. While French citizens begged for lower taxes, the queen embellished her palace with extravagant works of art. She also surrounded herself with artists, writers, and musicians, who encouraged the queen to spend money even more profusely. While the queen's favorites glutted themselves on huge feasts at the royal table, many people in France were starving. The French government taxed the citizens outrageously. These high taxes paid for the entertainments the queen and her court so enjoyed. When the minister of finance tried to stop these royal spendthrifts, the queen replaced him. The intense hatred that the people felt for Louis XVI and Marie Antoinette kept building until it led to the French Revolution. During this time of struggle and violence (1789-1799), thousands of aristocrats, as well as the king and queen themselves, lost their lives at the guillotine. Perhaps if Louis XVI and Marie Antoinette had reined in their extravagant spending, the events that rocked France would not have occurred.The minister of finance tried to curb these royal ____.**A.** money wasters**B.** aristocrats**C.** spenders**D.** individuals**E.** enemies**Answer: A**Explanation:Explanation/Reference: Explanation:

NEW QUESTION: 3Your network contains an Active Directory domain named contoso.com.The

domain contains a server named Server1 that runs Windows Server 2012 R2 and has the DNS Server server role installed. Server1 is configured to use a DNS server from an Internet Service Provider (ISP) as a forwarder. Corporate management requires that client computers only resolve names of contoso.com computers. You need to configure Server1 to resolve names in the contoso.com zone only. What should you do on Server1? **A.** From Windows PowerShell, run the Set-NetDnsTransitionConfiguration cmdlet. **B.** From Windows PowerShell, run the Remove-DnsServerForwarder cmdlet. **C.** From DNS Manager, modify the root hints of Server1. **D.** From DNS Manager, modify the Advanced properties of Server1. **Answer: C**
Explanation: If the DNS server does not know the address of the requested site, then it will forward the request to another DNS server. In order to do so, the DNS server must know of the IP address of another DNS server that it can forward the request to. This is the job of root hints. Root hints provides a list of IP addresses of DNS servers that are considered to be authoritative at the root level of the DNS hierarchy (also known as root name server).
