NEW QUESTION: 2An organization has decided to implement additional security controls to treat the risks of a new process. This is an example of:A. transferring the risk.B. accepting the risk.C. mitigating the risk.D. eliminating the risk.**Answer: C**Explanation:ExplanationRisk can never be eliminated entirely. Transferring the risk gives it away such as buying insurance so the insurance company can take the risk. Implementing additional controls is an example of mitigating risk. Doing nothing to mitigate the risk would be an example of accepting risk.

NEW QUESTION: 3A clinical social worker is helping a family whose primary language is Spanish. The mother and children speak broken English, but there is great difficulty in reading within both languages. When the social worker attempts to orally go over a written consent with the mother, there is much confusion. What is the professional's next step?A. Inform a supervisor of the problem B. Provide the client with a Spanish version C. Show the mother where to sign D. Provide an interpreter**Answer: D**Explanation:It is the clinical social worker's responsibility to ensure a client comprehends the services being provided and does not sign anything without full understanding. If a detailed verbal explanation is not appropriate due to a client's literacy or language barrier, a translator should be provided.
