NEW QUESTION: 1DRAG DROPYou need to publish biographical information to the board member site collection.Which five actions should you perform in sequence? (To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.)Select and Place:**Answer:** Explanation:Explanation/Reference:Note:* From scenario:Site Collections and ContentThe web application includes the following three site collections.1/ Board Member Site CollectionThe Board Member site collection is only accessible to the board members so that they can view private company information.The Board Member site collection has the following requirements:- Only board members can log in to the site collection.- A page within the site collection must display a list of all the board members.- The website must be located at http://www.contoso.com/sites/board.2/ Internet Site Collection Requirements include:Each member of the board must have a page that contains biographical information about that board member.The list of board members must be available in the Board Member site collection.3/ Agent Site Collection* Main steps:Create site collections for cross-site publishing(Box 1, box2) Activate the Cross-Site Collection Publishing featureCreate and manage term sets for tagging content on authoring sitesCreate catalog content by using SharePoint lists(Box 3) Share a library or list as a catalogMake a term set available to other site collections(Box 5) Configure search for cross-site publishing* Before you can use cross-site collection publishing to reuse content across site collections, you have to activate the Cross-Site Collection Publishing feature on the authoring site collection.To activate the Cross-Site Collection Publishing feature1. Verify that the user account that performs this procedure is a site collection administrator on the authoring site collection.2. On the top-level site of the authoring site collection, on theSettingsmenu, clickSite Settings.3. On theSite Settingspage, in theSite Collection Administrationsection, clickSite collection features.4. On theSite Collection Featurespage, next toCross-Site Collection Publishing, clickActivate.* Cross-site publishing is a new publishing method that lets you create and maintain content in one or more authoring site collections and publish this content in one or more publishing site collections by using Search Web Parts. Cross-site publishing complements the already existing publishing method, author-in- place, where you use a single site collection to author content and make it available to readers of your site.Reference: Configure cross-site publishing in SharePoint Server 2013

NEW QUESTION: 2 You have a storage media with some data and you make efforts to remove this data. After performing this, you analyze that the data remains present on the media. Which of the following refers to the above mentioned condition?**A.** Data remanence**B.** Object reuse**C.** Degaussing**D.** Residual**Answer: A**Explanation:Data remanence refers to the data that remains

even after the efforts have been made for removing or erasing the data. This event occurs because of data being left intact by an insignificant file deletion operation, by storage media reformatting, or through physical properties of the storage medium. Data remanence can make unintentional disclosure of sensitive information possible. So, it is required that the storage media is released into an uncontrolled environment. Answer C and B are incorrect. These are the made-up disasters. Answer A is incorrect. Object reuse refers to reassigning some other object of a storage media that has one or more objects.

NEW QUESTION: 3 The performance benchmark for a currency overlay portfolio must be calculated in accordance with the portfolio's mandates, unless the benchmark is the _____ on a published benchmark.**A.** currency return**B.** mean value**C.** cross hedge**D.** standard deviation**E.** tax return**Answer: A**Explanation:Explanation/Reference:Explanation:Two portfolios with the same benchmark may give different mandates to the overlay portfolio managers.For example, when the mandate is based on the underlying assets, the return of the overlay performance benchmark will be different unless the underlying assets of two portfolios imply identical currency exposures. Consequently, the performance benchmark for a currency overlay portfolio must be calculated in accordance with the portfolio's mandates, unless the benchmark is the currency return on a published benchmark.
