NEW QUESTION: 2 As a candidate for CCBA, you should be able to recognize the activities associated with each knowledge area.Which of the following are business analysis planning and monitoring activities? Each correct answer represents a complete solution.**A.** Identifying stakeholders**B.** Planning how requirements will be approached, traced, and prioritized**C.** Job shadowing**D.** Defining and determining business analysis processes**Answer: A,B,D**Explanation: ExplanationThe most common business analysis planning and monitoring activities are. identifying stakeholders, defining roles and responsibilities of stakeholders in the business analysis effort, developing estimates for business analysis tasks, planning how the business analyst will communicate with stakeholders, planning how requirements will be approached, traced, and prioritized, determining the deliverables that the business analyst will produce, defining and determining business analysis processes, and determining the metrics that will be used for monitoring business analysis work.Answer A is incorrect. Job shadowing is an elicitation process that is a part of job observation. In this process,the observer is required to keep an eye on those workers whose work routine is down and who are unable to explain their work. The observer has to understand their work process for better assessment of the modifications of the work required. The following are the approaches for this technique: Passive/Invisible. In this approach, the observer does not ask questions from the user about his work while the user is working.Active/Visible. In this approach, the observer does ask questions from the user about his work even when the user is working.
