Then the client can click the links and download and then you can use our D-VXR-DY-01 questions torrent to learn.

NEW QUESTION: 1A company has an HP HSM solution that consists of an HP MSM760 Access Controller and controlled HP MSM317 Access Devices. The solution supports a VSG that enforces HTML based user login (Web-Auth) using the controller's internal login pages. The company wants to customize these pages. What are the correct guidelines for customization?**A.** The web designer can change the text and images and add new pages. However, the designer must not change the existing ASP code or add any new scripts.**B.** The Web designer can change the text and images and add new script and pages. However, the existing ASP code should generally be left intact.**C.** The web designer can change the text and change the logo image. If the company requires more customization than that, the company should host the pages on external Web server.**D.** The Web designer can change the text and images. However, the designer must not change the existing ASP code or add any new**Answer: B****Explanation:**Student Guide Book 1 - Implementing and Troubleshooting HP Wireless Networks - Page 5-64 Companies can customize the public access interface pages a great deal, adding their own pictures, text, styles, and pop-ups. The pages include code that references functions on the MSM Controller. The Web designers should not change this code. Student Guide Book 1 - Implementing and Troubleshooting HP Wireless Networks - Page 5-65 Web designers can find a list of ASP variables and forms used by the MSM Controller in the HP MSM7xx Controllers

Configuration Guide. This guide also specifies the syntax used by the controller's embedded Javascript code.

NEW QUESTION: 2 Without asking a user or physically inspecting their computer, how can you determine which version of web browser they are using to make requests that are intercepted by the ProxySG? (Select all that apply)
A. By inspecting the ProxySG access log, if access logging is enabled.
B. You cannot do this.
C. By performing packet captures on the ProxySG when that web browser is in use.
D. By using the VPM realm browser.
Answer: A,C
Explanation:
