Litware, Inc. Case Study This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided. To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study. At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section. To start the case study To display the first question in this case study, click the Next button. Use the

buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

Overview  
Litware, Inc. is an online retailer that uses Microsoft Power BI dashboards and reports. The company plans to leverage data from Microsoft SQL Server databases, Microsoft Excel files, text files, and several other data sources. Litware uses Azure Active Directory (Azure AD) to authenticate users.

Existing Environment  
Sales Data  
Litware has online sales data that has the SQL schema shown in the following table. In the Date table, the dateid column has a format of yyyyymmdd and the month column has a format of yyyyymm. The week column in the Date table and the weekid column in the Weekly\_Returns table have a format of yyyyww. The regionid column can be managed by only one sales manager.

Data Concerns  
You are concerned with the quality and completeness of the sales data. You plan to verify the sales data for negative sales amounts.

Reporting Requirements  
Litware identifies the following technical requirements:

- \* Executives require a visual that shows sales by region.
- \* Regional managers require a visual to analyze weekly sales and returns.
- \* Sales managers must be able to see the sales data of their respective region only.
- \* The sales managers require a visual to analyze sales performance versus sales targets.
- \* The sales department requires reports that contain the number of sales transactions.
- \* Users must be able to see the month in reports as shown in the following example: Feb 2020.
- \* The customer service department requires a visual that can be filtered by both sales month and ship month independently.
