NEW QUESTION: 2You'd like to schedule a firewall policy to only allow a certain application during a particular time of day. Where can this policy option be configured?**A.** Policies > Security > Profile**B.** Policies > Security > Service**C.** Policies > Security > Options**D.** Policies > Security > Application**Answer: A**

NEW QUESTION: 3You need to configure VMM 2012 to meet the private cloud services requirements for the human resources department users.What should you configure? (Each correct answer presents part of the solution. Choose all that apply.)**A.** A user role**B.** A cloud**C.** A capability profile**D.** A virtual machine template**E.** A service template**Answer: A,B,C,D**

Explanation:Explanation/Reference:Explanation:As of VMM in System Center 2012, self-service users deploy their virtual machines and services to private clouds. This is a change from earlier versions of VMM, in which self-service user roles are assigned host groups, and virtual machines are deployed automatically (and transparently) to the most suitable host in the host group. A private cloud consists of one or more host groups that provide computing capacity and disk resources to self-service user roles. A private cloud can be assigned to multiple self-service user roles.Reference: <http://technet.microsoft.com/en-us/library/gg610573.aspx>
