NEW QUESTION: 3 A user is planning to launch multiple EC2 instance same as current running instance. Which of the below mentioned parameters is not copied by Amazon EC2 in the launch wizard when the user has selected the option "Launch more like this"? **A. Tenancy setting B. Termination protection C. Storage D. Shutdown behavior** **Answer: C** Explanation: Explanation/Reference: Explanation: The Amazon EC2 console provides a "Launch more like this" wizard option that enables the user to use a current instance as a template for launching other instances. This option automatically populates the Amazon EC2 launch wizard with certain configuration details from the selected instance. The following configuration details are copied from the selected instance into the launch wizard: AMI ID Instance type Availability Zone, or the VPC and subnet in which the selected instance is located Public IPv4 address. If the selected instance currently has a public IPv4 address, the new instance receives a public IPv4 address- regardless of the selected instance's default public IPv4 address setting. For more information about public IPv4 addresses, see Public IPv4 Addresses and External DNS Hostnames. Placement group, if applicable IAM role associated with the instance, if applicable Shutdown behavior setting (stop or terminate) Termination protection setting (true or false) CloudWatch monitoring (enabled or disabled) Amazon EBS-optimization setting (true or false)

Tenancy setting, if launching into a VPC (shared or dedicated) Kernel ID and RAM disk ID, if applicable User data, if specified Tags associated with the instance, if applicable Security groups associated with the instance The following configuration details are not copied from your selected instance; instead, the wizard applies their default settings or behavior:(VPC only) Number of network interfaces: The default is one network interface, which is the primary network interface (eth0).Storage: The default storage configuration is determined by the AMI and the instance type.
