**NEW QUESTION: 1**Which of the following would MOST effectively control the usage of universal storage bus (USB) storage devices?**A.** Administratively disabling the USB port**B.** Software for tracking and managing USB storage devices**C.** Policies that require instant dismissal if such devices are found**D.** Searching personnel for USB storage devices at the facility's entrance  
**Answer: B**  
Explanation:Explanation/Reference:Explanation:Software for centralized tracking and monitoring would allow a USB usage policy to be applied to each user based on changing business requirements, and would provide for monitoring and reporting exceptions to management. A policy requiring dismissal may result in increased employee attrition and business requirements would not be properly addressed. Disabling ports would be complex to manage and might not allow for new business needs. Searching of personnel for USB storage devices at the entrance to a facility is not a practical solution since these devices are small and could be easily hidden.

**NEW QUESTION: 2**You configured all of the header and footer links for the Main Brand, but discovered that the header and footer are not configured for some of the brands.
