**NEW QUESTION: 1** Click to expand each objective. To connect to the Azure portal, type <https://portal.azure.com> in the browser address bar. When you are finished performing all the tasks, click the 'Next' button. Note that you cannot return to the lab once you click the 'Next' button. Scoring occur in the background while you complete the rest of the exam. Overview The following section of the exam is a lab. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design. Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task. Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. To start the lab You may start the lab by clicking the Next button. **NEW QUESTION: 3** See the scenario for additional informational. CruiseAlong Cars CruiseAlong Cars is a car manufacturing and sales company with corporate headquarters in the United States of America. It has grown by acquisition over the last 20 years and has operations in over 50 countries. Each country has its own IT organization, with some central corporate IT services

provided by the US parent company. In some countries CruiseAlong Cars has outsourced infrastructure and service desks. The largest IT supplier is Global City IT Services (GCITS). In two countries GCITS provides CruiseAlong Cars with full outsourced services. They also provide selected services in other countries. Some of the issues that CruiseAlong Cars needs to address include:

- \* Inefficiencies caused by the current IT structure
- \* Inconsistency of IT services when employees are travelling

CruiseAlong Cars is working with a European university (the University of Bachstein) to research and develop driverless car technology. The venture operates as an independent company called DriveYou.com, and CruiseAlong Cars owns a 51% share.

**DriveYou.com** This is a small, innovative company, that is jointly owned by CruiseAlong Cars and the University of Bachstein (UoB). DriveYou.com develops custom applications using a highly collaborative, rapid and iterative development approach. Their employees are mostly research and development experts, working from multiple locations, with a significant number working from home. Initial driverless car testing is being conducted in the US at the Nevada State Department of Transportation. Infrastructure and cloud services are purchased from Global City IT Services and other providers, and these relationships are managed by a DriveYou.com supplier manager. Some of the issues that DriveYou.com needs to address include:

- Better structure and accountability around their work practices
- Compliance with safety and other regulatory requirements.

**University of Bachstein (UoB)** The UoB is a university that is based Germany, with a satellite campus in Kuala Lumpur, Malaysia. In the past, some IT services were funded and run centrally, and some were funded and run independently by each faculty. Centrally owned services include a 'walk-in' service desk, plus a separate service desk in the main library, run by library staff. Library services and IT are both part of the university's administrative services division. Recently, under a new CIO, there has been a drive to centralize and consolidate IT as a corporate function, although this has not been fully achieved. The central IT department runs a variety of legacy systems, which serve students, administrators, researchers and academics. It also runs some high performance computing systems and high bandwidth networks across the main campus area. Some of the issues that the UoB needs to address include:

- \* Complete the centralization and consolidation of IT
- \* Manage growth and increasing IT demand
- \* Demonstrate value through competitive, responsive and transparent services

**Global City Services (GCITS)** GCITS is a global service provider which has grown through acquisition and which offers a wide range of services, including IT support, infrastructure and consulting. GCITS has mature and efficient IT service management processes, and holds an ISO/IEC 20000 certification. GCITS provides the entire infrastructure and some cloud services for DriveYou.com, as well as a range of services in different countries to CruiseAlong Cars. Some of the issues that GCITS needs to address include:

- \* Succeed in establishing a strategic partnership with CruiseAlong Cars

**Nevada State Department of Transportation (NSDOT)** NSDOT is a government agency in the US state of Nevada, where DriveYou.com is running their trials. It is responsible for managing transportation systems and safety. DriveYou.com must work with the agency to ensure that their trials comply with safety regulations, and the program includes bidirectional sharing of large amounts of data. The NSDOT's internal IT team writes and manages most of their agency-specific applications, however most other applications and infrastructure are provided by the Nevada State central IT department. GCITS have a major audit coming up to verify continued compliance to the ISO/IEC 20000 standard. In preparation for the audit, they are conducting a series of internal audits. GCITS has grown through acquisition. The latest acquisition, Optimsolv, does not comply with ISO/IEC20000. Optimsolv has a number of process improvements that need to be implemented to attain compliance. GCITS has six months to ensure that Optimsolv is compliant. When would it be MOST appropriate to use a stakeholder analysis worksheet during the improvement initiative within Optimsolv?

- A.** During planning, to identify the key people who need to be influenced within Optimsolv.
- B.** During process design, to prioritize stakeholders within GCITS.
- C.** During implementation, to understand the primary motivation for change at Optimsolv.
- D.** During testing, to measure the risk to achieving the ISO/IEC 20000 accreditation.

**Answer: A**
