Topic 4, Proseware, Inc. (Case Study) Overview Proseware, Inc. is a software company.

Proseware has 5,000 employees, of which 3,500 employees work in production, 1,000

employees are development engineers, and 500 employees work in sales, marketing, and

administration. Existing Environment Current Environment Proseware has an Enterprise

Agreement (EA) that includes Microsoft Office Professional Plus, Microsoft Core CAL Suite, and

Windows 10 Enterprise. The company's on-premises datacenter contains servers that run

Windows Server Datacenter to support unlimited visualization. Windows Server was purchased

as an additional product through the EA. The company has a total of 160 Windows Server

Datacenter core licenses. Problem Statements Proseware identifies the following issues: \* The

hardware and supporting infrastructure of the on-premises datacenter is outdated. \* The most

experienced employees in the IT department are retired and the company fails to replace them

with qualified candidates. Requirements Business Goals Proseware has the following business

goals: \* Use the latest technologies and products. \* Ensure that all new purchases have price

protection for three years. \* Update the infrastructure without a large upfront investment and

without tying up capital. \* Outsource the management of and global migration strategy for

online services while minimizing costs. \* Maintain the on-premises datacenter while reducing

the number of IT employees required to support it. \* Leverage the existing investment in

on-premises products to reduce the overall cost of online services. \* Provide a modern work

environment for the development engineers to work remotely and on any device while

protecting the company's intellectual property. Planned Changes Proseware plans to

implement the following changes: \* When the current EA expires, move to equivalent Microsoft

Online Services that have the highest security standards for all workloads. \* Obtain a

management tool for the on-premises servers.
