**A.** Retention of user keys  
**B.** Access to quarantined files  
**C.** Retention of user directories and files  
**D.** Increased logging on access attempts  
**Answer: A**  
Explanation: Section: Access Control and Identity Management  
Explanation/Reference: Explanation: Account Disablement should be implemented when a user will be gone from a company whether they leave temporary or permanently. In the case of permanently leaving the company the account should be disabled. Disablement means that the account will no longer be an active account and that the user keys for that account are retained which would not be the case if the account was deleted from the system.
