Our live support is available all the time, For sake of its high quality, [Valid TA-003-P Exam Answers](#) after using DCDC Certification latest practice questions, you can successfully pass the exams, which is definitely conducive to your future job-hunting.

NEW QUESTION: 1A server has been configured behind a firewall and a website has been deployed, but customers are unable to access the website. Which of the following should the technician do to ensure the customers can access the site?**A.** Place server in DMZ.**B.** Change DHCP settings.**C.** Enable port forwarding.**D.** Adjust QoS settings.**Answer: C**

NEW QUESTION: 2Which choice below is NOT an accurate statement about an organization's incident-handling capability?**A.** It should be used to provide the ability to respond quickly and effectively to an incident.**B.** The organization's incident-handling capability should be used to detect and punish senior-level executive wrong-doing.**C.** The organization's incident-handling capability should be used to contain and repair damage done from incidents.**D.** It should be used to prevent future damage from incidents.**Answer: B****Explanation:**An organization should address computer security incidents by developing an incident-handling capability. The incident-handling capability should be used to: Provide the ability to respond quickly and effectively. Contain and repair the damage from incidents. When left unchecked, malicious software can significantly harm an organization's computing, depending on the technology and its connectivity. Containing the incident should include an assessment of whether the incident is part of a targeted attack on the organization or an isolated incident. Prevent future damage. An incident-handling capability should assist an organization in preventing (or at least minimizing) damage from future incidents. Incidents can be studied internally to gain a better understanding of the organization's threats and vulnerabilities. Source: NIST Special Publication 800-14, Generally Accepted Principles and Practices for Securing Information Technology Systems.

NEW QUESTION: 3Which of the following Veeam products can estimate the required free space needed on target backup repositories?**A.** Veeam Backup Enterprise Manager**B.** Veeam ONE**C.** Veeam Backup & Replication**D.** Veeam plug-in for vSphere Web Client**Answer: B****Explanation:** Reference https://helpcenter.veeam.com/one/reporter/vm_change_rate_history.html
