With the help of the Huawei H14-331\_V1.0 pdf dumps provided by Photoexperienceacademy, you will be able to clear the HCIE-openGauss (Written) V1.0 exam on the first attempt, We have one-year service warranty that our customers will receive the updating H14-331\_V1.0 study guide within one year.

We will provide you with 24 hours of free online services to let you know that our H14-331\_V1.0 study materials are your best tool to pass the exam.

**NEW QUESTION: 1** SCENARIO WebTracker Limited is a cloud-based online marketing service located in London. Last year, WebTracker migrated its IT infrastructure to the cloud provider Amazon, which provides SQL Databases and Artificial Intelligence services to WebTracker. The roles and responsibilities between the two companies have been formalized in a standard contract, which includes allocating the role of data controller to WebTracker. The CEO of WebTracker, Mr. Bond, would like to assess the effectiveness of Amazon's privacy controls, and he recently decided to hire you as an independent auditor. The scope of the engagement is limited only to the marketing services provided by WebTracker, you will not be evaluating any internal data processing activity, such as HR or Payroll. This ad-hoc audit was triggered due to a future partnership between WebTracker and SmartHome - a partnership that will not require any data sharing. SmartHome is based in the USA, and most recently has dedicated substantial resources to developing smart refrigerators that can suggest the recommended daily calorie intake based on DNA information. This and other personal data is collected by WebTracker. To get an idea of the scope of work involved, you have decided to start reviewing the company's documentation and interviewing key staff to understand potential privacy risks. The results of this initial work include the following notes: \* There are several typos in the current privacy notice of WebTracker, and you were not able to find the privacy notice for SmartHome. \* You were unable to identify all the sub-processors working for SmartHome. No subcontractor is indicated in the cloud agreement with Amazon, which is responsible for the support and maintenance of the cloud infrastructure. \* There are data flows representing personal data being collected from the internal employees of WebTracker, including an interface from the HR system. \* Part of the DNA data collected by WebTracker was from employees, as this was a prototype approved by the CEO of WebTracker. \* All the WebTracker and SmartHome customers are based in USA and Canada. Based on the initial assessment and review of the available data flows, which of the following would be the most important privacy risk you should investigate first? **A.** Verify that WebTracker's HR and Payroll systems implement the current privacy notice (after the typos are fixed). **B.** Evaluate and review the basis for processing employees' personal data in the context of the prototype created by WebTracker and approved by the CEO. **C.** Review the list of subcontractors employed by Amazon and ensure these are included in the formal agreement with WebTracker. **D.** Confirm whether the data transfer from London to the USA has been fully approved by Amazon and the appropriate institutions in the USA and the European Union. **Answer: B**

**NEW QUESTION: 2** Which of the following is an objective of Phase B, Business Architecture? **A.** To finalize the Architecture Vision and Architecture Definition documents **B.** To demonstrate how stakeholder concerns are addressed in the Business Architecture **C.** To develop a Target Technology Architecture to support the business **D.** To confirm the ability of the enterprise to undergo change **E.** To maximize the business value from the architecture **Answer: B**

**NEW QUESTION: 3** when can you NOT use a characteristic with the high cardinality property?

there are 3 correct answers to this question. Response: **A.** When it will be part of a hierarchy **B.** When it will be part of a report-to-report interface **C.** When it will be a time-dependent attribute **D.** When it will be a navigation attribute **E.** When it will be a compound characteristic **Answer: A,D,E**

**NEW QUESTION: 4** A customer who is an Amiable Type would typically be classed as: **A.** An authoritative and informed customer. **B.** Someone who often comes in to chat and not buy. **C.** Unlikely to make a purchase. **D.** Talkative and interested more in opinion than facts. **Answer: D**
