NEW QUESTION: 1 Security awareness training is MOST likely to lead to which of the following?
A. Increase in access rule violations **B.** Increase in reported incidents **C.** Decrease in security policy changes **D.** Decrease in intrusion incidents
Answer: B
Explanation: Explanation Reported incidents will provide an indicator as to the awareness level of staff. An increase in reported incidents could indicate that staff is paying more attention to security. Intrusion incidents and access rule violations may or may not have anything to do with awareness levels. A decrease in changes to security policies may or may not correlate to security awareness training.
