NEW QUESTION: 1Which describes a business capability assessment?**A.** A survey covering skills levels within the customer's IT organization**B.** Brainstorming about how process model governance could be improved**C.** Review of current capability metrics**D.** How capabilities are currently implemented in competitive organizations (measurement formulas)**Answer: C**

NEW QUESTION: 2What option is available for the Collection manager for viewing customer data in the Delinquent Customer Region on the collections Work Area pages?**A.** Query by Example**B.** Export to HTML**C.** PDF view**D.** Export to Excel**Answer: A****Explanation:**The Collections Customer Work Area allows the collector to view and process the assigned work. The collector can search on a customer or set up a saved search. A saved search contains specific search criteria and settings that are captured for running exactly the same search again later. You save the visible search fields and entered criteria, selected conditions, and search mode, either basic or advanced. You can choose to save search result display settings as well, for example which columns to display or hide, the sort order, and column order. A saved search does not include the current set of search results, search result table filters, search result sort order, or values entered in Query By Example fields.**Note:** The Collections Dashboard automatically assigns collections work with summary information to help you prioritize and update related activities for each delinquent customer you need to manage. As work progresses, you can update the status so you are always working with the most up-to-date information, ensuring nothing slips through the cracks.**Reference;** Oracle Fusion Applications Procurement, Payables, Payments, and Cash Guide , Collections Customer Work Area: Overview
