You can check your mailbox ten minutes after payment to see if our D-CSF-SC-23 exam guide materials are in, With limited time, you need to finish your task in D-CSF-SC-23 quiz guide, considering your precious time, we also suggest this version of D-CSF-SC-23 study guide that can help you find out your problems to pass the exam.

NEW QUESTION: 1Blockchain is always a better alternative to a standard database.**A. FalseB. True****Answer: A**

NEW QUESTION: 2Regarding the 'Shared Security Responsibilities' on Alibaba Cloud, which of the following options are the responsibilities Cloud user need to take care of?**A. ECS network configurationB. Data security inside ECSC. Physical servers water proofD. Application vulnerabilities****Answer: A,B,D**

NEW QUESTION: 3You are a licensing specialist. Your customer is Proseware, Inc., an online bookstore that has \$30 million in annual sales.**Company Background**Proseware, Inc., has a main office in New York and branch offices in the United States, Greece, and Malaysia. The company anticipates that sales will continue to grow this year.**Network Description**The company network contains 700 desktops that run Microsoft Windows XP Professional. Two hundred of the desktops run Microsoft Office 2000 Professional, which is covered by Software Assurance that expires in 13 months. The other 500 desktops run Office 2000 Standard, which is not covered by Software Assurance. The current desktop environment meets the company's needs. The network contains 100 Windows NT Server 4.0 servers that run the company's online Web services. The company wants to upgrade all the servers to Windows Server 2003. However, there is not enough budget to upgrade this year. The company is considering a Microsoft Exchange Server 2003 deployment, and it expects to purchase about 20 additional servers during the next three years.**Current Licensing Solution**Proseware, Inc., currently purchases Microsoft software through an Open Volume agreement. In the past, the company made license-only purchases on all server software licenses and did not invest in Software Assurance. Because of the geographical locations of the company offices, managing licenses is difficult.**Business Goals**The chief executive officer (CEO) states that the information technology (IT) department is too busy managing the server infrastructure. The IT department has the following goals: Increase the security of the network. Maintain stability in the organization's infrastructure. Ensure that the technology on new servers is kept current. Increase the return on IT investments. The IT department does not have time for basic desktop help desk requests. The department wants to find ways to gain additional technical support from Microsoft on desktop and server products that are purchased.**End of repeated scenario**You need to recommend the most appropriate licensing solution for upgrading the servers to Windows Server 2003. What should you recommend?**A. Original Equipment Manufacturer (OEM)B. Select License with Software Assurance MembershipC. Open Volume with Software AssuranceD. Enterprise AgreementE. Open Business with Software Assurance****Answer: B**
