NEW QUESTION: 3 A. Option DB. Option CC. Option BD. Option A
Answer: D
Explanation:
Explanation tacacs-server host host-name [port integer] [timeout integer] [key string] [single-connection] [nat] The single-connection keyword specifies a single connection (only valid with CiscoSecure Release 1.0.1 or later). Rather than have the router open and close a TCP connection to the server each time it must communicate, the single-connection option maintains a single open connection between the router and the server. The single connection is more efficient because it allows the server to handle a higher number of TACACS operations.
