NEW QUESTION: 1A. Option A **B.** Option B **Answer: B**

NEW QUESTION: 2A security analyst receives the following output Which of the following MOST likely occurred to produce this output? **A.** The firewall prevented an incoming malware-infected file **B.** USB-OTG prevented a file from being uploaded to a mobile device **C.** The host-based firewall prevented an attack from a Trojan horse **D.** The host DLP prevented a file from being moved off a computer **Answer: C**

NEW QUESTION: 3You are an independent project manager who uses Project Professional 2013. You work in multiple projects for different customers and use one project to manage all their tasks. You create a custom field called Customer Name to identify the customer, and you use the Cost field to monitor the amount of money for each task. You need to view the most expensive detail tasks in the top of your table without subtotals and summaries. You turned off summary tasks. What should you do next? **A.** Set the Sort by option to Cost Descending. **B.** Set the Sort by option to Cost Ascending. **C.** Create a custom view based on Cost and Customer Name fields. Define a group by Cost with order as descending. **D.** Create a custom group based on Cost and Customer Name fields. Define a group by Cost with order as ascending. **Answer: A**

NEW QUESTION: 4The Chief Security Officer (CSO) is concerned about misuse of company assets and wishes to determine who may be responsible. Which of the following would be the BEST course of action? **A.** Implement a single sign-on application on equipment with sensitive data and high-profile shares. **B.** Create a single, shared user account for every system that is audited and logged based upon time of use. **C.** Separate employees into teams led by a person who acts as a single point of contact for observation purposes. **D.** Enact a policy that employees must use their vacation time in a staggered schedule. **Answer: D** Explanation: A policy that states employees should use their vacation time in a staggered schedule is a way of employing mandatory vacations. A mandatory vacation policy requires all users to take time away from work while others step in and do the work of that employee on vacation. This will afford the CSO the opportunity to see who is using the company assets responsibly and who is abusing it.
