R1で、192.168.10.1へのルートで使用されているルーティングプロトコルはどれですか。 **A.** OSPF **B.** IGRP **C.** RIP **D.** EIGRP **Answer: D**

**NEW QUESTION: 3** Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time. When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design. Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task. Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. You may now click next to proceed to the lab. A user named [\[email#160;protected\]](#) cannot modify the properties of the web app. You need to ensure that [\[email#160;protected\]](#) can modify the web app properties. What should you do? NOTE: To answer this question, sign in to the Azure portal and explore the Azure resource groups. **A.** Modify the permissions on the web app **B.** Remove the resource lock from the resource group **C.** Remove the resource lock from the web app **D.** Modify the permissions on the resource group **Answer: C** Explanation: Explanation As an administrator, you may need to

lock a subscription, resource group, or resource to prevent other users in your organization from accidentally deleting or modifying critical resources. Note: resource - A manageable item that is available through Azure. Virtual machines, storage accounts, web apps, databases, and virtual networks are examples of resources. References:
