**NEW QUESTION: 1** During your business trip to the UK, you took a taxi ride and paid for it by using your personal Visa credit card. While entering your expenses, you get a warning that a different conversion rate was applied to the taxi expense by Visa that the one used by your company. How do you handle this situation? **A.** Call Visa to address the issue and tell them to make adjustments to their conversion rate. Then, wait to get a revised statement. **B.** Use the corporate-defined conversion rate even if it means you will not be reimbursed fully. **C.** Overwrite the conversion rate with the one Visa provided and enter a justification that Visa used a different conversion rate. **D.** Do not enter the taxi expense and call your Finance Department so that they can make changes in the conversion rate settings and you do not violate the allowable limit. **Answer: C** Explanation: Payables uses five types of exchange rates. Payables uses exchange rates to convert invoice and payment amounts into your ledger currency. \* User. Used to manually enter your own exchange rate during invoice entry or at payment time. If you use the User exchange rate type, if the Payables option Calculate User Exchange Rate is enabled, and if you are using the Invoices window or the open interface table, then Payables calculates the invoice exchange rate if you provide the Ledger Currency amount. Etc.
