Topic 13, School of Fine Art  
COMPANY OVERVIEW  
School of Fine Art is an educational institution that has a main campus and two satellite campuses. The main campus is located in New York. The satellite campuses are located in Los Angeles and Chicago.  
PLANNED CHANGES  
School of Fine Art plans to deploy a 64-bit line-of-business application named App1 to all users on the network. App1 must be updated by using the minimum amount of administrative effort.  
School of Fine Art plans to centralize the management of all its virtualization technologies.  
School of Fine Art plans to implement the following storage requirements for the documents on Server1: Archive all of the content on Server 1 that is older than 180 days. Prevent files that have a specific file type from being uploaded to Server 1. Automatically send administrators a report by using e-mail that contains a list of the duplicate files on Server 1.  
School of Fine Art plans to implement an auditing solution.  
School of Fine Art plans to improve the performance of the PKI infrastructure.  
School of Fine Art plans to deploy a Windows Update solution on all client computers.  
EXISTING ENVIRONMENT  
---Business Goals  
Minimize software licensing costs.  
Existing Active Directory Environment  
The network contains a single Active Directory domain named fineartschool.net.

All domain controllers run either Windows Server 2003 or Windows Server 2008 R2. All client computers run a 32-bit version of Windows 7. Existing Network Infrastructure School of Fine Art has a file server named Server1. The network contains the following virtualization technologies: ---VMWare ESX Server Microsoft Hyper-V Server 2008 Microsoft Virtual Server 2005 R2 The company's internal Public Key Infrastructure (PKI) contains two servers named CA1 and CA2. CA1 and CA2 have the Active Directory Certificate Services (AD CS) role service installed. CA1 is configured as an offline standalone root certification authority (CA). CA2 is configured as an enterprise subordinate CA. CA2 has been issuing certificates for many years. REQUIREMENTS Technical Requirements School of Fine Art must meet the following technical requirements:-- Minimize the amount of time it takes client computers to verify certificates. Minimize the amount of network bandwidth the client computers use to verify the --certificates. Ensure that only client computers that have the latest Windows updates installed can connect to the network. Log each change made to the objects stored in Active Directory. Ensure that the logs contain the before and after values of all the changes. Administration Requirements Administrators report that it takes a long time to manage the virtualization technologies by using the default administrative tools. A new solution must be implemented to manage the virtualization technologies.
