This 2016-FRR interactive Testing Engine tool is an excellent add on to prepare your Final Exam.

NEW QUESTION: 1

どのような構成では、コンピュータにログインするとき、AnyConnectは、自動的にVPNセッションを確立することを可能にしますか？**A. 常にオン****B. プロキシ****C. トラステッドネットワーク検出****D. 透過モード****Answer: A**Explanation:You can configure AnyConnect to establish a VPN session automatically after the user logs in to a computer. The VPN session remains open until the user logs out of the computer, or the session timer or idle session timer expires. The group policy assigned to the session specifies these timer values. If AnyConnect loses the connection with the ASA, the ASA and the client retain the resources assigned to the session until one of these timers expire. AnyConnect continually attempts to reestablish the connection to reactivate the session if it is still open; otherwise, it continually attempts to establish a new VPN session.
