NEW QUESTION: 1 Well-written risk assessment guidelines for IS auditing should specify which of the following elements at the least (choose all that apply):**A.** None of the choices.**B.** The timing of risk assessments.**C.** Guidelines for handling special cases.**D.** A maximum length for audit cycles.**E.** Documentation requirements.**Answer: B,C,D,E**Explanation:A well-written risk assessment guidelines should specify a maximum length for audit cycles based on the risk scores and the timing of risk assessments for each department or activity. There should be documentation requirements to support scoring decisions. There should also be guidelines for overriding risk assessments in special cases and the circumstances under which they can be overridden.

NEW QUESTION: 2 You are designing a virtual machine that will run Microsoft SQL Server and will contain two data disks. The first data disk will store log files, and the second data disk will store data. Both disks are P40 managed disks.You need to recommend a caching policy for each disk. The policy must provide the best overall performance for the virtual machine.Which caching policy should you recommend for each disk? To answer, drag the appropriate policies to the correct disks. Each policy may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.NOTE: Each correct selection is worth one point.**Answer:** Explanation:ExplanationReferences: https://docs.microsoft.com/en-us/azure/virtual-machines/windows/sql/virtual-machines-windows-sql-performanc

NEW QUESTION: 3 During an exit interview, in cases where there is disagreement regarding the impact of a finding, an IS auditor should:**A.** report the disagreement to the audit committee for resolution.**B.** elaborate on the significance of the finding and the risks of not correcting it.**C.** accept theauditee's position since they are the process owners.**D.** ask theauditee to sign a release form accepting full legal responsibility.**Answer: B**Explanation:If the auditee disagrees with the impact of a finding, it is important for an IS auditor to elaborate and clarify the risks and exposures, as the auditee may not fully appreciate the magnitude of the exposure. The goal should be to enlighten the auditee or uncover new information of which an IS auditor may not have been aware. Anything that appears to threaten the auditee will lessen effective communications and set up an adversarial relationship. By the same token, an IS auditor should not automatically agree just because the auditee expresses an alternate point of view.
