NEW QUESTION: 1 Drag and Drop the OpenStack projects from the left onto their function on the right?**Answer:** Explanation:

NEW QUESTION: 2A. Option DB. Option BC. Option AD. Option C**Answer: C**Explanation: ExplanationBranch Office Direct Printing can reduce Wide Area Network (WAN) usage by printing directly to a print device instead of a server print queue. This feature can be enabled or disabled on a per printer basis and is transparent to the user. It is enabled by an administrator using the Print Management Console or Windows PowerShell on the server. The printer information is cached in the branch office, so that if the print server is unavailable for some reason (for example if the WAN link to the data center is down), then it is still possible for the user to print. Branch Office Direct Printing requires the following operating systems: Windows Server 2012 Windows 8

NEW QUESTION: 3 Your network contains a server named Server1 that runs Windows Server 2008 R2. Server1 has the Network_Policy Server (NPS) role installed. You need to ensure that the NPS log files on Server1 contain information of client connections. What should you do?**A.** Configure the IAS (Legacy) log file format.**B.** Enable the Accounting requests settings.**C.** Enable the Authentication requests settings.**D.** Configure the DTS Compliant log file format.**Answer: D** Explanation: ExplanationExplanation/Reference: Explanation: The DTS Compliant log format is the newest one and only its XML have attributes for session duration such as Acct-Session-Time = "The length of time (in seconds) for which the session has been active.

NEW QUESTION: 4 A retention policy allows an IBM Security QRadar SIEM V7.2.8 Administrator to define how long the system is required to keep certain types of data and what to do when data reaches a certain age. If a 3-month retention policy is defined for all events, then the system will not delete event data until its on disk timestamp is 3 months in the past. Which two choices are available in the 'delete data in this bucket'? (Choose two.)**A.** When storage space is required**B.** Immediately after retention period has expired**C.** When the index is full**D.** When performance is heavily affected**E.** Upon reboot of the system**Answer: A, B**Explanation: ExplanationFrom the list box, select a deletion policy. Options include: * When storage space is required - Select this option if you want events or flows that match the Keep data placed in this bucket for parameter to remain in storage until the disk monitoring system detects that storage is required. If used disk space reaches 85% for records and 83% for payloads, data will be deleted. Deletion continues until the used disk space reaches 82% for records and 81% for payloads. When storage is required, only events or flows that match the Keep data placed in this bucket for parameter are deleted. * Immediately after the retention period has expired - Select this option if you want events to be deleted immediately on matching the Keep data placed in this bucket for parameter. The events or flows are deleted at the next scheduled disk maintenance process, regardless of free disk space or compression requirements.
