NEW QUESTION: 3HOTSPOTA company plans to purchase 400 Microsoft Office 365 ProPlus User Subscription Licenses (USLs) for its users.For each of the following statements, select Yes if the statement is true. Otherwise, select No.**Answer:** Explanation:Explanation:* Microsoft Online Subscription Agreement* access Office experiences on up to 5 PCs or Macs and on their mobile devices* Online Services Downgrade RightsIn Online Services customers have access to the latest technology with the newest features and releases. As with all Subscription Services, Microsoft generally offers only the latest version of the service at a time. Therefore, downgrade rights are not available with Office 365 ProPlus licenses.* Office365 ProPlus use rights allow the Licensed User to install one of five permitted copies of the software on the USB drive using Windows installer package (MSI). MSI deployments require Volume Licensing media for Office Professional Plus 2013.Topic 5, Fabrikam, Inc. (Case Study)OverviewFabrikam, Inc. is an international pharmaceutical company that has 2,500 employees in the following roles:* 2,000 research employees* 300 administrative employees* 75 sales employees who work remotely* 125 distribution and warehousing employeesExisting EnvironmentCurrent Infrastructure Fabrikam has an on-premises server farm that runs Windows Server 2012 R2, Microsoft SharePoint Server 2013, and Microsoft Exchange Server 2013. The products are used to support the following:* The research department runs sophisticated document management and workflow systems.* The distribution and warehousing employees only access the company's intranet.All employees use various versions of Microsoft Office to access existing documents. All employees create documents except for the employees in the distribution and warehousing department.Fabrikam has a custom enterprise resource planning (ERP) tool that currently requires Microsoft SQL Server 2012.The server farm contains the following 10 servers:* Two

servers that each have two 2-core processors* Three servers that each have two 4-core processors* Five servers that each have four 8-core processors

Current Licensing Solution Fabrikam signed a Microsoft Products and Services Agreement (MPSA) three years ago and used it to purchase on-premises software without Software Assurance (SA). The company also used the agreement to trial some online services, such as Office 365. This transactional method of purchasing licenses has served them well.

Requirements Business Goals Fabrikam must upgrade its entire Windows Server and SQL Server infrastructure during the next six months to support an update to its ERP tool. Moving forward, the most up-to-date version of these server products must always be deployed. Fabrikam wants to improve the management of the on-premises servers by using Microsoft System Center. Fabrikam wants to minimize the cost of licensing, whenever possible. Fabrikam plans to implement a bring-your-own device (BYOD) policy. The new policy will allow employees access to Office, corporate data, and corporate resources. The IT department is concerned about the extra work involved in managing and securing the devices. Fabrikam plans to move to Windows 10 Enterprise E3 to take advantage of the product's enhanced security features.

Planned Changes Fabrikam plans to migrate to Office 365 rather than to purchase the most up to up-to-date version of products, such as SharePoint Server. However, employees will require access to on-premises solutions in the short term during the migration to Office 365. The sales department will present solutions to its global clients by using an online solution prior to travelling to meet them. The company plans to use toll-free, dial-in conference calls. The IT department wants to use a Microsoft solution for all domestic and international calls. The existing ERP tool has limited support for managing customer relationships. Fabrikam wants to evaluate a new customer relationship management (CRM) solution for the sales and administrative employees. Only the sales employees will need to create new opportunities.

Licensing Requirements Fabrikam employs students from July to September. The company wants to license the students only for the period during which they work.
