APIリクエストが発行されたかどうかを確認します**B.**

If you receive a notification from such an alarm, you might want to cancel deletion of the CMK to give yourself more time to determine whether you want to delete it Options B and D are incorrect because Key policies nor IAM policies can be used to check if the keys are being used.Option C is incorrect since rotation will not help you check if the keys are being used.For more information on deleting keys, please refer to below URL:
