NEW QUESTION: 2 You need to make decisions about how an application should behave, such as date ranges and defaults. What should you consider before defining Collections Preferences?
A. the employees who are involved with the collections process and how the collectors will be assigned
B. user application privileges
C. system privileges
D. customer contact information
E. scheduled processes
Answer: E
Explanation: Explanation/Reference: Explanation: Oracle Fusion Advanced Collections provides a user interface to guide you through the collection preferences. The two required setup regions are: Global Preferences and Preferences. Global preferences affect the Collections Customer Work Area, such as display of closed or open transactions and setting date range parameters. Selections made in the Global Preference region impact the view the collectors see from the Collections Customer Work Area and Collections Dashboard. Global Preferences define the following: Default transaction class that appears Display of open transactions Display of closed transactions Number of days for prior and future transactions to be displayed Default aging method Delimiter used to separate data and the number of characters required to do a search
