The Photoexperienceacademy is one of the top-rated and leading platforms that offer real and exam trainers verified 300-415 Implementing Cisco SD-WAN Solutions practice test questions, So, you do not worry that your 300-415 dumps will be the old version after you buy.

NEW QUESTION: 1 Which of the following is the MOST likely to change an organization's culture to one that is more security conscious?
A. Periodic compliance reviews
B. Security awareness campaigns
C. Security steering committees
D. Adequate security policies and procedures
Answer: B
Explanation: Security awareness campaigns will be more effective at changing an organizational culture than the creation of steering committees and security policies and procedures. Compliance reviews are helpful; however, awareness by all staff is more effective because compliance reviews are focused on certain areas groups and do not necessarily educate.

NEW QUESTION: 2 次の表に示すユーザーを含むMicrosoft 365サブスクリプションがあります。次の表に示す名前付きの場所があります。次の構成を持つ条件付きアクセスポリシーを作成します。ユーザーとグループ：*含める：Group1
*除外：グループ2クラウドアプリ：すべてのクラウドアプリを含める条件：*含める：任意の場所
*除外：モントリオールアクセス制御：アクセスを許可し、多要素認証を要求する
User1は、多要素認証（MFA）ブロックされたユーザーリストにあります。以下の各ステートメントについて、ステートメントが真である場合は「はい」を選択します。それ以外の場合は、「いいえ」を選択します。
注：それぞれの正しい選択には1ポイントの価値があります。**Answer:** Explanation: Explanation: The Blocked User list is used to block specific users from being able to receive Multi-Factor Authentication requests. Any authentication attempts for blocked users are automatically denied. Users remain blocked for 90 days from the time that they are blocked.
Box 1: Yes 133.107.10.20 is in the Montreal named location. The conditional access policy excludes Montreal so the policy does not apply. Therefore, User1 can access Microsoft Office 365.
Box 2: No 193.77.10.15 is in the Toronto named location. The conditional access policy applies to Group1 which User1 is a member of and all locations except for Montreal. Therefore, the conditional access policy applies in this case. The policy requires MFA but User1 is on the MFA blocked list so he is unable to use MF
Box 3: Yes User2 is in Group1 and Group2. The conditional access policy applies to Group1 but excludes Group2. Therefore, the conditional access policy does not apply in this case so User2 can access Microsoft Office 365.

Topic 1, Fabrikam, Inc This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided. To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information

about the scenario that is described in the case study. Each question is independent of the other questions in this case study. At the end of this case study, a review screen will appear. This screen allows you to review your answer and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section. To start the case study To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. When you are ready to answer a question, click the Question button to return to the question.

Overview Fabrikam, Inc. is an electronics company that produces consumer products. Fabrikam has 10,000 employees worldwide. Fabrikam has a main office in London and branch offices in major cities in Europe, Asia, and the United States.

Existing Environment Active Directory Environment The network contains an Active Directory forest named fabrikam.com. The forest contains all the identities used for user and computer authentication. Each department is represented by a top-level organizational unit (OU) that contains several child OUs for user accounts and computer accounts. All users authenticate to on-premises applications by signing in to their device by using a UPN format of [\[email protected\]](#). Fabrikam does NOT plan to implement identity federation.

Network Infrastructure Each office has a high-speed connection to the Internet. Each office contains two domain controllers. All domain controllers are configured as a DNS server. The public zone for fabrikam.com is managed by an external DNS server. All users connect to an on-premises Microsoft Exchange Server 2016 organization. The users access their email by using Outlook Anywhere, Outlook on the web, or the Microsoft Outlook app for iOS. All the Exchange servers have the latest cumulative updates installed. All shared company documents are stored on a Microsoft SharePoint Server farm.

Requirements Planned Changes Fabrikam plans to implement a Microsoft 365 Enterprise subscription and move all email and shared documents to the subscription. Fabrikam plans to implement two pilot projects: Project1: During Project1, the mailboxes of 100 users in the sales department will be moved to Microsoft 365. Project2: After the successful completion of Project1, Microsoft Teams & Skype for Business will be enabled in Microsoft 365 for the sales department users. Fabrikam plans to create a group named UserLicenses that will manage the allocation of all Microsoft 365 bulk licenses.

Technical Requirements Fabrikam identifies the following technical requirements: All users must be able to exchange email messages successfully during Project1 by using their current email address. Users must be able to authenticate to cloud services if Active Directory becomes unavailable. A user named User1 must be able to view all DLP reports from the Microsoft 365 admin center. Microsoft Office 365 ProPlus applications must be installed from a network share only. Disruptions to email address must be minimized.

Application Requirements Fabrikam identifies the following application requirements: An on-premises web application named App1 must allow users to complete their expense reports online. The installation of feature updates for Office 365 ProPlus must be minimized.

Security Requirements Fabrikam identifies the following security requirements: After the planned migration to Microsoft 365, all users must continue to authenticate to their mailbox and to SharePoint sites by using their UPN. The memberships of UserLicenses must be validated monthly. Unused user accounts must be removed from the group automatically. After the planned migration to Microsoft 365, all users must be signed in to on-premises and cloud-based applications automatically. The principle of least privilege must be used.

NEW QUESTION: 3 Which of the following is NOT defined as part of the New Library Wizard? **A.** the location of the library **B.** the metadata for the library tables **C.** the metadata name for the library **D.** the type of library **Answer: B**
