**NEW QUESTION: 3**The Information Security Officer (ISO) is reviewing a summary of the findings from the last COOP tabletop exercise. The Chief Information Officer (CIO) wants to determine which additional controls must be implemented to reduce the risk of an extended customer service outage due to the VoIP system being unavailable. Which of the following BEST describes the scenario presented and the document the ISO is reviewing?**A.** The ISO is evaluating the business implications of a recent telephone system failure within the **BIB**. The ISO is investigating the impact of a possible downtime of the messaging system within the **RA**.**C.** The ISO is assessing the effect of a simulated downtime involving the telecommunication system within the **AAR**.**D.** The ISO is calculating the budget adjustment needed to ensure audio/video system redundancy within the **RFQ**.**Answer: C**Explanation:VoIP is an integral part of network design and in particular remote access, that enables customers accessing and communicating with the company. If VoIP is unavailable then the company is in a situation that can be compared to downtime. And since the ISO is reviewing he summary of findings from the last COOP tabletop exercise, it can be said that the ISO is assessing the effect of a simulated downtime within the **AAR**.Incorrect Answers:A: Evaluating business implications due to a recent telephone system failure is done as part of Business impact Analysis (BIA) and a BIA is done mainly to, and as part of analyzing business critical business functions, identifying and quantifying the impact of the loss of those functions.B: Possible downtime within the Risk Assessment (AR) is done to determine the quantitative or qualitative estimate of risk related to a specific situation and establishing an acceptable risk.C: Requests for Quotations involves the research involved to procure a contract for security requirements; the whole process of inviting suppliers of a service to bid for the contract.References:
