NEW QUESTION: 1 A case can be in one of the following states: New, Completed, Working, Initializing, and Failed. What is the state of the case when Content Engine is setting the case properties during case creation? **A. Initializing B. Working C. Failed D. New** **Answer: A**

NEW QUESTION: 2 An internal auditor is testing, on a sample basis, whether invoices paid between January 1 and December 31 are supported by appropriately approved purchase orders. Over 25,000 invoices were paid during the fiscal year, which runs from the first of April to the end of March. The auditor sets the acceptable risk of assessing control risk too low at 5% and the tolerable deviation rate at 5%. The internal auditor consults the previous audit and sets the expected population deviation rate at 1%. Sample size (77) is selected from a table and rounded up to 80. No sample deviations were found. The upper deviation limit was 3.7%. Which of the following statements represents a valid conclusion regarding this information? **A. I am 95% confident that the true, but unknown, population deviation rate is less than or equal to 3.7%. Results indicated that the sample size was too small, as no sample deviations were found. B. I am 95% confident that the true, but unknown, population deviation rate is less than or equal to 3.7%. The quantitative attribute testing results indicate that the control is not effective. C. I am 95% confident that the actual population deviation rate is 3.7%. Since this is less than the tolerable deviation rate, quantitative attribute testing results indicate that the control is effective. D. I am 95% confident that the true, but unknown, population deviation rate is less than or equal to 3.7%. The quantitative attribute testing results indicate that the control is effective.** **Answer: D**

NEW QUESTION: 3 What will the following code in Python 3 result in? **A. NameError, outer B. global x, outer x C. outer x, outer x D. inner x, outer x E. inner x, inner x** **Answer: C**

NEW QUESTION: 4 You have been managing multiple portfolios in your company for the past two decades and all deliveries were successful. A new portfolio manager is struggling and came to you for advice on the portfolio process groups. He knows that portfolio process groups are the base of portfolio management. While you explain to him about them, you told him that portfolio process groups are independent of **A. Business and Strategic Objectives B. Application Areas and Industry Focus C. Human Resources D. Budget** **Answer: B** **Explanation:** Explanation Process Groups have clear dependencies and are typically performed in the same sequence for each portfolio. They are independent of application areas or industry focus
