Layers are inspected in the order in which they are defined, allowing control over the rule base flow and which security functionalities take precedence. **D.** Time object to a rule to make the rule active only during specified times.

Answer: C

NEW QUESTION: 2 How can you resolve a dependency Error when using Cloudformation? **A.** Use the mappings attribute **B.** Use the parameter attribute **C.** Use the Error attribute **D.** Use the DependsOn attribute **Answer: D** Explanation: Explanation The AWS troubleshooting guide for Cloudformation states the following To resolve a dependency error, add a DependsOn attribute to resources that depend on other resources in your template. In some cases, you must explicitly declare dependencies so that AWS Cloud Formation can create or delete resources in the correct order. For example, if you create an Elastic IP and a VPC with an Internet gateway in the same stack, the Elastic IP must depend on the Internet gateway attachment. For more information on Cloudformation troubleshooting, please refer to the below url
