NEW QUESTION: 1What type of cost is associated with Supporting an operational unit until new working practices become part of business as usual?**A.** Programme management**B.** Business change and transition**C.** Capital**D.** Project**Answer: B**

NEW QUESTION: 2This question requires that you evaluate the underlined text to determine if it is correct. When a base class declares a method as virtual, the method is hidden from implementation by a derived class. Select the correct answer if the underlined text does not make the statement correct. Select "No change is needed" if the underlined text makes the statement correct.**A.** can be overridden with its own implementation by a derived class**B.** must be overridden in any non-abstract class that directly inherits from that class**C.** No change is needed**D.** cannot be overridden with its own implementation by a derived class**Answer: A**
Explanation: Explanation/Reference: The implementation of a non-virtual method is invariant: The implementation is the same whether the method is invoked on an instance of the class in which it is declared or an instance of a derived class. In contrast, the implementation of a virtual method can be superseded by derived classes. The process of superseding the implementation of an inherited virtual method is known as overriding that method.
