We guarantee all CCD-102 dumps VCE we sell out are the latest, valid and accurate.

NEW QUESTION: 1 Which of the following is a principle associated with the key components of a governance framework?
A. Key components should function independently to maintain integrity
B. The interaction among key components will impede automation and should therefore be limited
C. The relationships among key components should be identified to maximize consistency
Answer: C

NEW QUESTION: 2 Which statement initializes a stringBuilder to a capacity of 128?
A. `StringBuilder sb = new StringBuilder(128);`
B. `StringBuilder sb = StringBuilder.getInstance(128);`
C. `StringBuilder sb = StringBuilder.setCapacity(128);`
D. `StringBuilder sb = new String("128");`
Answer: A
Explanation: `StringBuilder(int capacity)` Constructs a string builder with no characters in it and an initial capacity specified by the `capacity` argument. Note: An instance of a `StringBuilder` is a mutable sequence of characters. The principal operations on a `StringBuilder` are the `append` and `insert` methods, which are overloaded so as to accept data of any type. Each effectively converts a given datum to a string and then appends or inserts the characters of that string to the string builder. The `append` method always adds these characters at the end of the builder; the `insert` method adds the characters at a specified point.

NEW QUESTION: 3 Which two default broadcast domains does the system create during cluster initialization? (Choose two.)
A. Default
B. Management
C. Cluster
D. Node
Answer: A,C
