NEW QUESTION: 2Your network contains a Windows Server Update Services (WSUS) server. You need to ensure that the WSUS server automatically downloads service packs.What should you do first?**A. From the Products and Classifications options, modify the Classifications settings.****B. From the Automatic Approvals options, modify the Update Rules list.****C. From the Automatic Approvals options, modify the Advanced settings.****D. From the Products and Classifications options, modify the Products settings.****Answer: A****Explanation:**Service Packs are an Update Classification. By specifying Service Packs from the Classifications settings, we will ensure WSUS downloads all Service Packs, regardless of the product they are available for.**Reference:** <http://technet.microsoft.com/en-us/library/dd939871%28v=ws.10%29.aspx>**WRONG ANSWER**The Automatic Approvals options is for handling how updates are determined for automatic approval. For instance, we could specify we only want certain Classifications of downloads to be automatically approved, but this is not directly related to whether the server downloads them, and it could have negative affects for other Classifications of updates.**Reference:** <http://technet.microsoft.com/en-us/library/cc708474%28v=ws.10%29.aspx>Products settings determine which programs WSUS will get updates for (ie, Windows, Office, SQL Server, Visual Studio).
