NEW QUESTION: 3Which of the following provides assurance, to a predetermined acceptable level of certainty, that an entity is indeed who they claim to be?**A. AuthenticationB. IdentificationC. AuthorizationD. ProofingAnswer: A**Explanation:ExplanationAuthentication goes a step further than identification by providing a means for proving an entity's identification. Authentication is most commonly done through mechanisms such as passwords. Identification involves ascertaining who the entity is, but without a means of proving it, such as a name or user ID.Authorization occurs after authentication and sets access permissions and other privileges within a system or application for the user. Proofing is not a term that is relevant to the question.
