I would like to bring to you kind attention that our latest SAP C-HCMOD-05 study guide is produced.

NEW QUESTION: 1An application is throwing unhandled `NullReferenceException` and `FormatException` errors. The stack trace shows that the exceptions occur in the `GetWebResult()` method. The application includes the following code to parse XML data retrieved from a web service. (Line numbers are included for reference only.) You need to handle the exceptions without interfering with the existing error-handling infrastructure. Which two actions should you perform? (Each correct answer presents part of the solution. Choose two.)
A. Option B **B.** Option D **C.** Option A **D.** Option C
Answer: C, D
Explanation/Reference:
Explanation:
A: The `TryParse` method is like the `Parse` method, except the `TryParse` method does not throw an exception if the conversion fails. It eliminates the need to use exception handling to test for a `FormatException` in the event that `s` is invalid and cannot be successfully parsed.
C: `UnhandledException` event handler
If the `UnhandledException` event is handled in the default application domain, it is raised there for any unhandled exception in any thread, no matter what application domain the thread started in. If the thread started in an application domain that has an event handler for `UnhandledException`, the event is raised in that application domain.

NEW QUESTION: 2A company has experienced problems with their ISP, which has failed to meet their informally agreed upon level of service. However the business has not negotiated any additional formal agreements beyond the standard customer terms. Which of the following is the BEST document that the company should prepare to negotiate with the ISP?
A. ISA **B.** SLA **C.** PBAD **D.** MOU
Answer: B

NEW QUESTION: 3All of the following are benefits of a program except for which one?
A. The program manager can use the same approach in stakeholder management for all projects in the program.
B. Projects can operate independently of one another.
C. All projects follow the policies of the program and organization.
D. Resource management in a program allows resources to be shared across all projects in the program.
Answer: B
