NEW QUESTION: 1 Password history policies are used to prevent:
A. Users from sharing passwords
B. Passwords from being reused immediately
C. Brute force attacks
D. Social engineering
Answer: B
Explanation: Explanation/Reference: Explanation: This security setting determines the number of unique new passwords that have to be associated with a user account before an old password can be reused. The value must be between 0 and 24 passwords. This policy enables administrators to enhance security by ensuring that old passwords are not reused continually.
