NEW QUESTION: 1You are analyzing the memory usage of a Microsoft SQL Server instance.You need to obtain the information described on the following table.Which performance counter should you use for each requirement? To answer, drag the appropriate performance counters to the correct requirements. Each performance counter may be used once, more than once or not at all. You may need to drag the split bat between panes or scroll to view content.**NOTE:** Each correct selection is worth one point.**Answer:** Explanation:ExplanationRequirement1: SQL Server: Memory Manager: Total Server Memory (KB)This counter specifies the amount of memory the server has committed using the memory manager.Requirement2: SQL Server: Memory Manager: Granted Workspace Memory (KB) Specifies the total amount of memory currently granted to executing processes, such as hash, sort, bulk copy, and index creation operations.Requirement3: Process: working SetEach time a process is created, it reserves the minimum working set size for the process. The virtual memory manager attempts to keep enough memory for the minimum working set resident when the process is active, but keeps no more than the maximum size.References:

NEW QUESTION: 4HOTSPOTA company has an Active Directory Domain Service (AD DS) domain. All servers run Windows Server 2008. You have an on-premises Exchange 2010 server. The company plans to migrate to Office 365.In the table below, identify the required action for each phase of the pilot. Make only one selection in each column. Each correct selection is worth one point.**Answer:** Explanation:Explanation:During migration which first step is to have the domain validated, the step that follows is to add users and assign licenses. Microsoft found that it is better to complete the domain configuration (with the exception of changing the MX records) and add users after the domain has been defined when migrating to Office 365. Planning for the migration involves preparation to synchronize the Active Directory.References: <https://msdn.microsoft.com/library/azure/jj151831.aspx>
