## Pass Guaranteed Quiz Newest C-ARSCC-2404 - SAP Certified Associate - Implementation Consultant - SAP Business Network for Supply Chain Certification Sample Questions

So you can choose the version of C-ARSCC-2404 training guide according to your interests and habits, Their struggle is not just to help you pass the exam, but also in order to let you have a better tomorrow.

It will help you assess your current preparation level so you can improve your preparation for the final SAP C-ARSCC-2404 exam, With the arrival of a new year, most of you are eager to embark on a brand-new road for success (C-ARSCC-2404 test prep).

Besides, we also have online chat service stuff, if you have any [CCFH-202 Printable PDF](#) questions, you can have a chat with them, or you can send emails to us, we will give you the reply as quickly as we can.

24/7 Customer Support on C-ARSCC-2404 Dumps PDF, Visit Photoexperienceacademy and register to download the complete question bank of C-ARSCC-2404 exam braindumps, We offer you free demo for you to have a try before buying C-ARSCC-2404 exam braindumps, so that you can have a deeper understanding of what you are going to buy.

**NEW QUESTION: 1**Your network contains a server named WDS1 that has the Windows Deployment Services (WDS) server role installed. WDS1 is used to deploy Windows 7. You create a virtual hard disk (VHD) file that contains an installation of Windows Server 2008 R2 Service Pack 1 (SP1). From the Windows Deployment Services console, you attempt to add the VHD file, and you receive the error message shown in the exhibit. (Click the Exhibit button.) You need to ensure that you can deploy the VHD file by using WDS. What should you do? Exhibit: **A.** Run wdsutil.exe and specify the /add-image parameter. **B.** Run imagex.exe and specify the /append parameter. **C.** Run wdsutil.exe and specify the update-serverfiles parameter. **D.** Run imagex.exe and specify the /apply parameter. **Answer: A** Explanation: To add a virtual hard disk image to the server 1. Click Start, right-click Command Prompt, and then click Run as administrator. 2. You must create an image group because .vhd images cannot be in image groups with .wim images. To create an image group for the .vhd image, use the following syntax: WDSUTIL /Add-ImageGroup /ImageGroup:<image group name>. Example: WDSUTIL /Add-ImageGroup /ImageGroup:'VHD Image Group' 3. To add the .vhd image to the server, use the following syntax (at a minimum): WDSUTIL /Verbose /Progress /Add-Image /ImageFile:<path> /ImageType:Install /ImageGroup:<image group name>. For differencing disks, the path to the image should be to the .vhd file of the differencing disk and not to the parent disk. Adding the differencing .vhd will add the parent .vhd file to the server, but only the differencing disk will be active (the parent .vhd will be inactive). If the differencing disk is part of chain, choose the last .vhd in the chain. In that case, the immediate parent .vhd and all preceding parent .vhd files in the chain will also be added. Full syntax: WDSUTIL /add-Image /ImageFile:<.vhd file path> [/Server:<server name>] /ImageType:install [/ImageGroup:<image group name>] [/Filename:<new image file name>] [/UnattendFile:<full path to unattendfile>] Example: WDSUTIL /Verbose /Progress /Add-Image /ImageFile:'C:\vhd\WindowsServer2008R2.vhd' /Server:MyWDS Server /ImageType:Install /ImageGroup:'VHD Image Group' 4. Repeat step 3 until you have added all of your .vhd images. 5. If you want to update the description for an image, use the following steps: a. Run WDSUTIL /Get-ImageGroup /ImageGroup:<image group name> and note the name that the server assigned to the image. To display the full image metadata on each image in the group, append /Detailed. Example: WDSUTIL /Get-ImageGroup /ImageGroup:'VHD Image Group' b. To update the description for an image, use the following syntax where <image name> is the name you noted in the previous step: WDSUTIL /Set-Image /Image:<image name> /ImageType:Install /ImageGroup:<image group name> /Description:<description>. Example: WDSUTIL /Set-Image /Image:'VHD image'

/ImageType:Install /ImageGroup:'VHD Image Group' /Description:'VHD image for R2'Source:

**NEW QUESTION: 2**You have an application that uses three separate databases to store application data, logs, and application security details. The maximum database throughput unit (DTU) per database does not exceed 50. You plan to deploy the application to Azure.You need to recommend a configuration for the databases that minimizes costs.For each requirement, which configuration option should you use? To answer, select the appropriate configuration option from each list in the answer area.**Answer:** Explanation:Explanation

**NEW QUESTION: 3**It is often said that those most firmly committed to an idea are also most critical of it. Yet, could anyone honestly defend this (i)\_\_\_\_\_? Consider, for instance, Elizabeth Stanton and Susan B. Anthony, who in the late nineteenth century paved the way for the women's rights movement through their fervent advocacy. Would it not be (ii)\_\_\_\_\_ that Stanton and Anthony were at the same time highly (ii)\_\_\_\_\_ of the notion that women deserve equal rights under the law?**A.** ill-conceived contrivance**B.** patently absurd to aver**C.** tautological to claim**D.** enamored**E.** supportive**F.** age-old aphorism**G.** audacious to insist**H.** oft-touted ideology**I.** suspicious**Answer: C,E,H**Explanation:The first sentence describes an aphorism, which means "a well-known saying or adage." Thus, the phrase age-old aphorism fits nicely in blank (i). The idea of the passage as a whole is that the "adage" mentioned in the first sentence is historically indefensible. To support this idea, the author seeks to point out that it would be completely and obviously wrong—in other words, patently absurd to aver (assert) that America's women's rights pioneers could possibly be critical of—or suspicious of—the idea that women deserve equal rights.
