The access to success is various, but the smart people choose the most effective one to pass the certificate as effective as possible (L4M1 study guide), If you want to, then you have arrived right place now.

Our L4M1 learning guide can offer you the latest and valid exam materials, Our website's CIPS L4M1 test dumps insides are always the latest version.

NEW QUESTION: 1 DRAG DROP You need to publish biographical information to the board member site collection. Which five actions should you perform in sequence? (To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.)
Select and Place:
Answer: Explanation: Explanation/Reference: Note: * From scenario: Site Collections and Content The web application includes the following three site collections.
1/ Board Member Site Collection The Board Member site collection is only accessible to the board members so that they can view private company information. The Board Member site collection has the following requirements: - Only board members can log in to the site collection. - A page within the site collection must display a list of all the board members. - The website must be located at <http://www.contoso.com/sites/board>.
2/ Internet Site Collection Requirements include: Each member of the board must have a page that contains biographical information about that board member. The list of board members must be available in the Board Member site collection.
3/ Agent Site Collection * Main steps: Create site collections for cross-site publishing (Box 1, box 2) Activate the Cross-Site Collection Publishing feature Create and manage term sets for tagging content on authoring sites Create catalog content by using SharePoint lists (Box 3) Share a library or list as a catalog Make a term set available to other site collections (Box 5) Configure search for cross-site publishing * Before you can use cross-site collection publishing to reuse content across site collections, you have to activate the Cross-Site Collection Publishing feature on the authoring site collection. To activate the Cross-Site Collection Publishing feature
1. Verify that the user account that performs this procedure is a site collection administrator on the authoring site collection.
2. On the top-level site of the authoring site collection, on the Settings menu, click Site Settings.
3. On the Site Settings page, in the Site Collection Administration section, click Site collection features.
4. On the Site Collection Features page, next to Cross-Site Collection Publishing, click Activate. *
Cross-site publishing is a new publishing method that lets you create and maintain content in one or more authoring site collections and publish this content in one or more publishing site collections by using Search Web Parts. Cross-site publishing complements the already existing publishing method, author-in-place, where you use a single site collection to author content and make it available to readers of your site.
Reference: Configure cross-site publishing in SharePoint Server 2013

NEW QUESTION: 2 You have a storage media with some data and you make efforts to remove this data. After performing this, you analyze that the data remains present on the media. Which of the following refers to the above mentioned condition?
A. Data remanence
B. Object reuse
C. Degaussing
D. Residual
Answer: A
Explanation: Data remanence refers to the data that remains

even after the efforts have been made for removing or erasing the data. This event occurs because of data being left intact by an insignificant file deletion operation, by storage media reformatting, or through physical properties of the storage medium. Data remanence can make unintentional disclosure of sensitive information possible. So, it is required that the storage media is released into an uncontrolled environment. Answer C and B are incorrect. These are the made-up disasters. Answer A is incorrect. Object reuse refers to reassigning some other object of a storage media that has one or more objects.

NEW QUESTION: 3 The performance benchmark for a currency overlay portfolio must be calculated in accordance with the portfolio's mandates, unless the benchmark is the _____ on a published benchmark.
A. currency return
B. mean value
C. cross hedged
D. standard deviation
E. tax return
Answer: A
Explanation: Explanation/Reference: Explanation: Two portfolios with the same benchmark may give different mandates to the overlay portfolio managers. For example, when the mandate is based on the underlying assets, the return of the overlay performance benchmark will be different unless the underlying assets of two portfolios imply identical currency exposures. Consequently, the performance benchmark for a currency overlay portfolio must be calculated in accordance with the portfolio's mandates, unless the benchmark is the currency return on a published benchmark.
