Itcert-online.com exam dumps are latest updated in highly outclass manner on regular basis and material is released periodically, You definitely have to have a try on our MB-330 exam questions and you will be satisfied without doubt.

NEW QUESTION: 1Exhibit.The host in the exhibit is connected to a 4-node ONTAP SAN using dual-fabric implementation. LUNs have been mapped LUN through all available UFs on nil (our nodes. Switch 2 is powered off for high-availability testing.How many paths per LUN would you expect the host to see in this scenario?**A. 0B. 1C. 2D. 3Answer: D**

NEW QUESTION: 2The finance director just submitted an account analysis report and would like to know to which printer it will print. He did not specify the name of the printer when he submitter the request, he just accept the default. He is using the General Ledger Super User responsibility.You access the System Profile Option screen and select the value of the printer profile option for the site, the General Ledger Application, the General Ledger SuperUser responsibility, and the Finance Director.You notice that the profile option at the site level does not contain a value.The profile option at the application level is set to printer1.The profile option at the responsibility level is set to printer2.The profile option for the finance director's user account is printer3.To which printer will his job print?**A. It would print using printer3 because of the setting at the user level.B. It would print using printer2 because of the setting at the responsibility level.C. It would print using printer1because of the setting at the application level.D. This information is inconclusive because it does not identify the profile option value that system would choose.E. It would not print because the default value at the site level is null.Answer: A**Explanation:User profile options typically exist at Site, Application, Responsibility and User levels. Oracle Application Object Library treats user profile levels as a hierarchy, where User is the highest level of the hierarchy, followed by Responsibility, Application and at the lowest level, Site. Higher-level option values override lower-level option values.Reference: Oracle E-Business Suite Developer's GuideUser Profile Levels
