NEW QUESTION: 3 Recent years have brought minority-owned businesses in the United States unprecedentedopportunities-as well as new and significant risks. Civil rights activists have long argued that one of theprincipal reasons why Blacks, Hispanics and the other minority groups have difficulty establishingthemselves in business is that they lack access to the sizable orders and subcontracts that are generatedby large companies. Now congress, in apparent agreement, has required by law that businesses awardedfederal contracts of more than $500,000 do their best to find minority subcontractors and record theirefforts to do so on forms field with the government. Indeed, some federal and local agencies have goneso far as to set specific percentage goals for apportioning parts of public works contracts to minority enterprises.Corporate response appears to have been substantial. According to figures collected in 1977, the total ofcorporate contracts with minority business rose from $77 to $1.1 billion in 1977. The projected total ofcorporate contracts with minority business for the early 1980's is estimated to be over $3 billion per yearwith no letup anticipated in the next decade. Promising as it is for minority businesses, this increasedpatronage poses dangers for them, too. First, minority firms risk expanding too fast and overextendingthemselves financially, since most are small concerns and, unlike large businesses they often need tomake substantial investments in new plants, staff, equipment, and the like in order to perform work subcontracted to them. If, thereafter, their subcontracts are for some reason reduced, such firms can facepotentially crippling fixed expenses. The world of corporate purchasing can be frustrating for smallentrepreneurs who get requests for elaborate formal estimates and bids. Both consume valuable time andresources and a small company's efforts must soon result in orders, or both the morale and the financialhealth of the business will suffer.A second risk is that White-owned companies may-seek to cash inon the increasing apportion-mentsthrough formation of joint ventures with minority-owned concerns, of course, in many instances there arelegitimate reasons for joint ventures; clearly, white and minority enterprises can team up to

acquirebusiness that neither could Third, a minority enterprise that secures the business of one large corporatecustomer often runs the danger of becoming and remaining dependent. Even in the best of circumstances,fierce competition from larger, more established companies makes it difficult for small concerns tobroaden their customer bases; when such firms have nearly guaranteed orders from a single corporatebenefactor, they may truly have to struggle against complacency arising from their current success.The primary purpose of the passage is to**A.** presents a commonplace idea and its inaccuracies**B.** analyze a frequent source to a problem**C.** propose a temporary solution to a problem**D.** describe a situation and its potential drawbacks **E.** explores the implications of findings.**Answer: D**
