**NEW QUESTION: 2** A. Option E B. Option A C. Option B D. Option D E. Option C **Answer: A,C**

**NEW QUESTION: 3** Management has added a requirement to segregate the duties of transferring journals to the General Ledger from the posting function. Which two new features allow this segregation? **A.** Journal entry spreadsheets are not impacted by this new function. **B.** For previously scheduled automated processes, it is recommended to cancel and reschedule the process for the option to be effective. **C.** Uncheck the Enable Posting from the Manage Subledger Accounting Options task. **D.** Must have separate user defined roles using the privilege XI\_A\_CREATE\_GENERAL\_LEDGER\_AND\_SUBLEDGER\_JOURNALS. **Answer: D**

**NEW QUESTION: 4** The Security team needs to provide a team of interns with an AWS environment so they can build the serverless video transcoding application. The project will use Amazon S3, AWS Lambda, Amazon API Gateway, Amazon Cognito, Amazon DynamoDB, and Amazon Elastic Transcoder. The interns should be able to create and configure the necessary resources, but they may not have access to create or modify AWS IAM roles. The Solutions Architect creates a policy and attaches it to the interns' group. How should the Security team configure the environment to ensure that the interns are self-sufficient? **A.** Create roles with the required service permissions, which are assumable by the services. Have the interns create and use a bastion host to create the project resources in the project subnet only. **B.** Create a policy that allows creation of project-related resources only. Create roles with required service permissions, which are assumable by the services. **C.** Create a policy that allows creation of all project-related resources, including roles that allow access only to specified resources. **D.** Create a policy that allows creation of project-related resources only. Require the interns to raise a request for roles to be created with the Security team. The interns will provide the requirements for the permissions to be set in the role. **Answer: B** Explanation: Interns are given permissions to create project-related resources. They then just have to associate the

appropriate roles (with the required service permissions, pre-created by the Security team) as they create the resources. This allows the interns to setup the environment without having to give them permissions to create or modify any roles themselves.
