At the command prompt, run the Dism command.D. Start the computer from the Windows Preinstallation Environment (Windows PE) and then run the Wpeutil command.
Answer: A
Explanation: Explanation/Reference: Explanation: Sysprep is a tool designed for corporate system administrators, OEMs, and others who need to deploy the Windows® XP operating system on multiple computers. After performing the initial setup steps on a single system, you can run Sysprep to prepare the sample computer for cloning. Sysprep prepares the image for capture by cleaning up various user-specific and computer-specific settings, as well as log files. The reference installation now is complete and ready to be imaged.
